## **NEW DECREE FOR THE CREATION OF A CLEAN AND SECURE 'STAMP'**

---

**Legal Notes:**

For information purposes, a new Decree no. 99/2020 of 9 November has been published, providing for the creation of a Clean and Secure 'Stamp'.

Its purpose is to support the tourism sector and related areas in the compliance and observance of health protocols for the prevention and control of COVID-19 thus making it possible to safely resume the exercise of social and economic activities, allowing the regaining of confidence of tourists and consumers of products and tourism services, nationally and internationally, as well as promoting the country as a Clean & Safe destination.

The application for this 'stamp' is something that is voluntary, can be done online and is valid for a year, subject to renewal. This is attributed to the applying entity if after an inspection, INATUR (National Tourism Institute) establishes that the entity complies with the health protocol validated by the Health Department within the scope of COVID-19, amongst other documental and licensing requirements.

If granted a display sign is attributed, subject to a fee, which can then be displayed at the tourism establishment.
